

Source/UniversityProject
/GameData/UPComboActionData.h

```
graph BT; A["Source/UniversityProject /GameData/UPComboActionData.h"] <-- B["Source/UniversityProject /Components/UPComboAttackComponent.cpp"]; A <-- C["Source/UniversityProject /GameData/UPComboActionData.cpp"];
```

The diagram illustrates a header file dependency. A central gray box at the top represents the header file 'Source/UniversityProject /GameData/UPComboActionData.h'. Below it, two white boxes represent source files: 'Source/UniversityProject /Components/UPComboAttackComponent.cpp' on the left and 'Source/UniversityProject /GameData/UPComboActionData.cpp' on the right. Blue arrows point from each source file box up to the header file box, indicating that both source files include or depend on the header file.
